

### Polyurethane Leaf

The polyurethane leaf from Dominion is the choice for Heavy Duty Commercial use and economical special duty. Heavy-duty lock and hinge reinforcements surrounded by a minimum 20 ga. textured, galvaneal skin provides the needed elements for years of reliable service. Hemmed edges and mechanical interlocking seams give additional rigidity and durability. Foamed in place high density polyurethane provides exceptional insulation and incomparable impact resistance. Fire ratable up to 3 hours, available in smooth skin or embossed; this is the product of choice where options, heavy duty, and insulation are important.

polyurethane leafs are non handed.

- Insulated - Standard to Maximum duty
- A60 Galvanealed steel optional
- 7 gage steel hinge reinforcements
- Fully welded edges - no visible seams
- Flush top and bottom -optional vertical channel.
- Fire door rating - up to three hours
- Thermal: R Factor 14.97 U Factor: 0.067
- "STC" (sound transmission class) rating: 26
- Open Close cycle: 1 million
- Face sheet grades:
  - Level 1, Standard duty 20 ga.
  - Level 2 , Heavy duty 18 ga.
  - Level 3, Extra heavy duty 16 ga.
  - Level 4 Maximum duty 14 ga.
